TROPICAL CYCLONE BULLETIN NR. 15F
Typhoon DOMENG (JANGMI)
Issued at 5:00 PM, 01 June 2026

TRACK AND INTENSITY OUTLOOK
• **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.** • DOMENG will continue to move north northeastward towards southern Japan. • A steady weakening trend is expected for DOMENG as it moves towards an increasingly less favorable environmental condition.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless re-development occur, this is the final bulletin for this weather disturbance.
